End Application:

F-15, f-16 acft

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Altimeter, rate of climb indicators, airspeed, mach indicators, engine pressure ratio indicators, air data computers, autopilots

Functional Description:

Used to calibrate air data instruments

Supplementary Features:

Ruska model does not contain same parts as kollsman model nsn 4920-01-104-8652 but performs same purpose; -10rs means rack mounted; requested name - automated airdata calibrator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
