End Application:

F110-ge-129 engine

Product Name:

Holder set, vsv-igv through stage 3 actuator arm

Special Features:

C/o a set of 4 half ring shaped holders; one used for th inlet guide vanes, and one each for stages 1, 2, 3. Each holder has a half ring shaped cover to confine and lock the vanes at required orientation

Functional Description:

Used to hold variable stator vanes-igv through stage 3 so lever arms point axially.

Reference Data And Literature:

Serd no. 2192

Supplementary Features:

Item is 9 in. X 12 in. X 24 in.; weight appx 20 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
