**End Application:**

F-16c/d

**Special Features:**

C/o 2 phenolic mounting blocks/steel beam/& assoc hrdwr

**Functional Description:**

Used to measure drag brace deflection (which is an indication of bushing wear) without removing the drag brace from aircraft

**Reference Data And Literature:**

Serd no 13215

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
