End Application:

F-16c/d

Special Features:

C/o 2 phenolic mounting blocks/steel beam/& assoc hrdwr

Functional Description:

Used to measure drag brace deflection (which is an indication of bushing wear) without removing the drag brace from aircraft

Reference Data And Literature:

Serd no 13215

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
