End Application:
F117 pw 100 aircraft engine
Nominalheight:
7.700 inches
Nominaldiameter:
16.000 inches
Functional Description:
Is required to support the lpt rear hub during various machining processes
Reference Data And Literature:
Serd no. 0390
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
