End Application:

Afats

Test Item Connection Method:

Coaxial cable

Special Features:

Interface group, test

Functional Description:

Rprovides central computer, software development station, tactical module, pump module and test staions with a sommunication network that has a bandwidth of 10 megabits , and is electromagnetic interference free

Reference Data And Literature:

Serd no. 1026

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
