Test Adapter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-413-9808

Overall Length:
9.500 inches
Overall Height:
5.500 inches
Overall Width:
18.500 inches
End Application:
F-16 avionics
Test Item Connection Method:
Cable
Special Features:
Adapter, interface test - combined interrogator transponder. Flex circuit cables with pcb connectors at one end and front panel moiunt cables
connections of the other
Functional Description:
Provides electrical and mechanical interface between the improved avionics intermediate shop (iais) test station ita interface unit and the Iru
test cable assemblies
Reference Data And Literature:
Serd no.0011
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A537k0
