Overall Height:

1.500 inches

Overall Width:

3.200 inches

End Application:

F117-pw-100 engine

Functional Description:

Mask protects and positions the high compressor blade airfoil and platform while the blade root is shotpeened

Reference Data And Literature:

Serd no. 2129

General Description:

Mask, high pressure compressor fourteenth stage blade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
