End Application:

F100-pw-229

Nominallength:

25.000 inches

Nominalheight:

10.000 inches

Special Features:

Company item name-fixture mold 1st stage compressor stator assembly

Functional Description:

Required to form an injection mold for pwa407 rubber on the 1st stage compressor stator assembly inner airseal

Reference Data And Literature:

Serd no. 7446

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
