Overall Length:

4.000 inches

Overall Height:

1.000 inches

Overall Width:

4.000 inches

End Application:

F117-pw-100 engine

Special Features:

Mask, grit blast/plasma spray-combustion chamber injector guide inner diameter

Functional Description:

Required to protect adjacent areas of combustion chamber inner diameter from over spray during grit blast and plasma spray

Reference Data And Literature:

Serd no 0457

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
