End Application:

C-17 photometric test bench

Product Name:

Light source, calibration

Special Features:

C/o 4920-01-350-9074, 6150-01-209-0834 and part number 7433-03

Functional Description:

Act as a transfer standard for comparing the bench calibrated variable light source; used to fault isolate the computer automated display test set and calibrated variable light source

Reference Data And Literature:

To 1c-17a-4-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
