End Application:

F-16 c/d electronic component p/n16e1606-835

Functional Description:

Serd name adapter, interface testriu; to include ita interface panel provides electrical and mechanical interface, cable assemblies and additionally weight less cables will not exceed 45 lbs, dimensions shall not exceed 9.5x 18.5 x 5.5 inches, shall incorporate identification words that will preclude initiating and incorrect test program for a riu connected to the iais teststation or for the ita interface panel connected for testing, minimize active components but active components will be incorporated as necessary, riu testprogram will be developed consisting of the performance and diagnostic tests necessary to implement the maintenance concepts and test requirements, will be written in the f-16 atlas high order language and documented in the sts; associated equipment iais test station serd 90784, iais load box serd 90a14 and ita storage case serd 90e07

Reference Data And Literature:

Serd 0041

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
