Overall Height:

0.425 inches

Overall Diameter:

0.629 inches

Major Components:

Piston 1

End Application:

NSN4-92-001-4175

Component Quantity:

3

Usage Design:

Designed to be used in pressure equalizing valve

Special Features:

This item is a piston, it is contained in the end item pn 750120-3; 3 each

Functional Description:

Piston, pressure equalizing valve

Reference Data And Literature:

Dwg no. 750580-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
