End Application:

F100-pw-100/200/220/220e/229

Product Name:

Heater

Special Features:

Consists of a fiberglass shell with a large hole in the center which allows the heater to be installed over the turbine hub with pwa57653 or pwa57810 adapter; heater pwa 56322 has a smaller center hole which makes it unsuitable for the -229 series engine

Functional Description:

Used to heat the lpt hub prior to installing the third and fourth stageturbine disk

Reference Data And Literature:

Serd 7714

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T276-d
