Overall Length:

10.000 inches

Overall Width:

0.500 inches

End Application:

C-17 aircraft rigging kit spacer assembly 17g230253-3

Special Features:

Ams 5604, 17-4ph; 0.100 in thk; cold rolled and solution heat treated, finish 2d; bent to 180 degrees on one end and 270 degrees on other end; 2 are required

Material:

Stainless steel

Relationship To Similar Equipment:

Similar to 17g230253-77 which has larger radius used on spacer assembly 17g230253-503

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
