End Application:

F117-pw-100

Nominal length:

10.000 inches

Nominal width:

5.000 inches

Nominal height:

5.000 inches

Special Features:

Fixture, machine - housing starter drive assembly

Functional Description:

Positions and secures the starterdrive assembly housing during machining

Unpackaged Unit Weight:

20.000 pounds

Reference Data And Literature:

Serd no.2510

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
