**End Application:**

F117-pw-100

**Nominal length:**

10.000 inches

**Nominal width:**

5.000 inches

**Nominal height:**

5.000 inches

**Special Features:**

Fixture, machine - housing starter drive assembly

**Functional Description:**

Positions and secures the starterdrive assembly housing during machining

**Unpackaged Unit Weight:**

20.000 pounds

**Reference Data And Literature:**

Serd no.2510

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
