Overall Length:

9.000 inches

Overall Height:

19.000 inches

Overall Width:

12.000 inches

End Application:

Support equipment, f100-pw-100 aircraft engine

Special Features:

Explosion-proof sensing chamber; on-line liquid density monitor, densitrol

Functional Description:

Used to measure the specific gravity of the calibration fluid on a test stand

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
