End Application:

F100-pw-229 aircraft engine

Nominal length:

25.000 inches

Nominal width:

25.000 inches

Nominal height:

1.200 inches

Special Features:

Graphite; contains specific expansion properties; company item name-fixture, heat treat, diffuser case

Functional Description:

Used to support the diffuser case in a furnace during heat treat

Reference Data And Literature:

Serd no. 7979

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
