End Application:

F100-pw-100/200/220/220e aircraft engine

Product Name:

Spacer, build stand

Nominalheight:

4.000 inches

Nominaldiameter:

11.000 inches

Special Features:

Yconsists of a steel base and ring with protective material on disk interfaces and sized to provide support for disk and hub assembly at proper height on build stand while remaining parts of low pressure turbine are assembled over it

Functional Description:

Fprovides support and location for 3rd stage disk and hub assembly to set it in correct position relative to low pressure turbine case for assembly of turbine module after incorporation of ec 96na053

Unpackaged Unit Weight:

21.000 pounds

Reference Data And Literature:

Serd no. 8060

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A505c0
