Usage Design:

Aircraft hydraulic system

Installation Design:

Portable

Power Source:

Electric motor

Special Features:

P/n 9780-0105 is modified version of p/n 9780-0074; 29 in. H, 84 in. W; modifications include flow doubler system, y-delt starters, larger hose and quick disconnect, pressurized reservoir with addition of air compressor system

Supplementary Features:

Company name-test stand-hydraulic portable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-e
