End Application:

E3b/c acft

Functional Classification:

Aa-9.3

Entry Date:

80-04-01

Supplementary Features:

Consists of bench top with computer, printer, 3-phase ac power supply, dc power supply with modules for different voltage ranges, switch matrix, multimeter, counter, function generator, digital function test set, function/sweep generator, quad 8-bit latch, oscilloscope, form c switch, synchro resolver simulator and indicator, mil-std-1553 a/b bus analyzer simulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
