**End Application:**

E3b/c acft

**Functional Classification:**

Aa-9.3

**Entry Date:**

80-04-01

**Supplementary Features:**

Consists of bench top with computer, printer, 3-phase ac power supply, dc power supply with modules for different voltage ranges, switch matrix, multimeter, counter, function generator, digital function test set, function/sweep generator, quad 8-bit latch, oscilloscope, form c switch, synchro resolver simulator and indicator, mil-std-1553 a/b bus analyzer simulator

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
