End Application:
E3b/c acft
Functional Classification:
Aa-9.3
Entry Date:
80-04-01
Supplementary Features:
Consists of bench top with computer, printer, 3-phase ac power supply, dc power supply with modules for different voltage ranges, switch
matrix, multimeter, counter, function generator, digital function test set, function/sweep generator, quad 8-bit latch, osciloscope, form c
switch, synchro resolver simulator and indicator, mil-std-1553 a/b bus analyzer simulator
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
Δ23800
