**End Application:**

F110-ge-100/129/400, f101-ge-102, f118-ge-100 engine

**Functional Description:**

Used to support the high pressure turbine aft inner nozzle during required machining operation for dimensional restoration of the aft surfaces

**Reference Data And Literature:**

Serd 6006

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
