End Application:

F101-ge-102; f110-ge-100; f110-ge-129; f118-ge-110; f110-ge-400

Product Name:

Fixture, machining-nozzle support, hpt fwd inner

Nominalheight:

2.000 inches

Nominaldiameter:

23.000 inches

Special Features:

Rabbeted base platge, steel

Functional Description:

Used to hold the nozzle support concentric during the machining operation

Unpackaged Unit Weight:

90.000 pounds

Reference Data And Literature:

Serd no. 6195

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
