End Application:

F110-ge-100/129/400, f101-ge-102, f118-ge-100 engine programs

Special Features:

Submitted name fixture heat treathp turbine, nozzle

Functional Description:

Used to maintain dimensional integrity during heat treat operations during overhaul of high pressure turbine aft inner nozzle support

Reference Data And Literature:

Serd 6007

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
