End Application:

B-1b aircraft electrical actuators/motor/ brake assemblies

Product Name:

Ac test panel, b-1b electrical actuator motor assembly

Special Features:

C/o dynamometer p/n hd400-6dl; controller p/n model 5220; safety shields -ss-001, -002; mounting bases tf4000, 4000dl; motor adapters tf4001dl, 4002dl, 4003dl, 4004dl, 4005dl, 4006dl; interface box tf4020dl; brake adapters tf4030-1, -2; coast adapter tf4060dl; facility power requirements= 115vac, 60 hz, 1 phase; 230vac, 400hz 3 phase

Reference Data And Literature:

Serd 11c29c, f34601-94-c-0200

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
