Find Applications
End Application:
F-100-pw-220/220e jet engine
Nominalheight:
3.600 inches
Nominaldiameter:
22.679 inches
Functional Description:
Required at depot to set to zero the gage that measures the inside diameter of the pocket of the compressor shroud 5th stage
Unpackaged Unit Weight:
12.000 pounds
Reference Data And Literature:
F100-pw200/220e task 311-84; contract f33657-95-c-0068 serd 8344
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
