Overall Length:

14.500 inches

Overall Height:

2.000 inches

Overall Width:

14.500 inches

End Application:

F100-pw-100, 200, 220, 220e, 229

Product Name:

Cover glass bead peen

Special Features:

Consists of an a2 steel cover plate and an a2 steel rolled ring

Functional Description:

Required to protect the number 3 bearing support, engaged to the diameter and seated against the flange face

Reference Data And Literature:

Serd number 8258

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
