Overall Length:

2.500 inches

Overall Width:

1.000 inches

End Application:

Pacer dawn

Product Name:

Holder, valve test

Functional Description:

Provides a means to calibrate/test the relief valve assembly to obtain/maintain the proper cracking pressure

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
