Hydraulic Fluid Flow Rate:

65.0 gallons per minute

End Application:

Multi-aircraft hydraulic system components

Usage Design:

Individual hydraulic units

Installation Design:

Fixed

Pressure Rating:

Between 0.0 pounds per square inch and 6000.0 pounds per square inch

Engine Driven Hydraulic Pump Testing Design Feature:

Not included

Filtering System:

Included

Pressure/suction Hose:

Included

Functional Description:

A non-portable test stand for testing aircraft hydraulic components

Reference Data And Literature:

Sa-alc pd97-ldee-09 revised 25 nov 97; this is a procurement document and no physical assets are to be controlled by this stocknumber

Supplementary Features:

This type II test stand does not include the variable speed drive (VSD); electrical equipment installed as required to meet requirements of system specifications; test stand requires a separate (not included) cooling unit for operation

Shelf Life:

N/A

Unit Of Measure:

--

Demilitarization:

No
