Aircraft Engine Maintenance Machining Fixture - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-459-3957

End Application:
F15i acft; f-100-pw-100, 200, 220, 220e, 229
Nominalheight:
6.750 inches
Nominaldiameter:
14.000 inches
Functional Description:
Locates and secures no3 bearing support during machining operations to the front and rear snap diameters and adjacent flange faces
Reference Data And Literature:
Serd 8243, contract nof33657-97-c0017
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A505c0
