End Application:

F15i acft; f-100-pw-100, 200, 220, 220e, 229

Nominalheight:

6.750 inches

Nominaldiameter:

14.000 inches

Functional Description:

Locates and secures no3 bearing support during machining operations to the front and rear snap diameters and adjacent flange faces

Reference Data And Literature:

Serd 8243, contract nof33657-97-c0017

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
