Mounting Type:

Floor

Horsepower Rating:

350.0

Product Name:

Generator/csd/idg test stand

Phase:

Three

Special Features:

Consists of control console, load band, hydraulic supply, drive stand, and power supply

Functional Description:

Gtesting include air/oil cooled generators, constant speed drives, integrated drive generators, variable speed constant frequency generators, auxiliary power unit generators, and dc starter/generators

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
