Overall Length:

22.000 inches

Overall Height:

8.000 inches

Overall Width:

8.000 inches

End Application:

C-17 aircraft support equipment

Product Name:

Hot air curing system

Special Features:

Portable hot air curing system for use on irregular shaped composite structures; utilizes dry oil free shop air at 80-100 psi, 4-8 cfm; power 240 vac, 50/60 hz, 3000 watts

Reference Data And Literature:

Serd no. 110614

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
