End Application:

C-17

Nominal length:

23.000 inches

Nominal width:

9.000 inches

Nominal height:

10.000 inches

Special Features:

Company name is adapter set-iru boresight/material: aluminum alloy; finish: anodized; operating temp: -4 degrees to +125 degrees fahrenheit

Functional Description:

To aid in angular alignment of aniru with reference to aircraft datum line

Unpackaged Unit Weight:

20.000 pounds

Reference Data And Literature:

Serial number 570771

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
