Carrying Case:

Not provided

End Application:

F-16 aircraft age

Usage Design:

Model 3719 design uses microcontrolled pressure and vacuum systems to simulate conditions of flight for avionics testing. Also provides highly accurate pressures and vacuum conditions to calibrate other lab or maintenance test equipment

Portability:

Portable

Special Features:

Requested name-air data test set

Functional Description:

Dual channel pitot/static simulator and calibrator for aircraft avionics instruments and lower level maintenance shop test equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
