End Application:

F100-pw-100, 200, 220, 220e

Nominal length:

21.000 inches

Nominal width:

21.000 inches

Nominal height:

5.000 inches

Special Features:

Serd name: 8th stage compressor stator machining master

Functional Description:

Used to set up and locate pwa72251 onto machining table

Reference Data And Literature:

Serd 8863

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
