End Application:

F100-pw-229 eng

Nominal length:

40.000 inches

Nominal width:

40.000 inches

Nominal height:

2.500 inches

Special Features:

Requested name-fixture, weld

Functional Description:

Used for weld repair of id and odrivet holes of front compressor inlet sync ring

Unpackaged Unit Weight:

100.000 pounds

Reference Data And Literature:

Serd number 8645

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
