Overall Length:

28.500 inches

Overall Height:

11.100 inches

Overall Width:

28.500 inches

End Application:

F100-pw-229 engine

Product Name:

4th -9th stage compressor case bleed hole od front boot grit blast/plasma spray mask

Functional Description:

Protects the forward section of the 4th to 9th stage compressor case 4075413 or 4080545 during plasma spray repair of the outer diameter of the bleed valve strap contact area. Used with compressor case installed in pwa70997 fixture; pwa72228 plugs; pwa72230 masking cover

Material:

Rubber synthetic and stainless steel

Reference Data And Literature:

Serd 8830

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
