End Application:

F100-pw-220/220e/229 engines

Nominalheight:

7.000 inches

Nominaldiameter:

24.000 inches

Special Features:

Serd name=fixture, polish-blade retaining plate, 2nd stage turbine

Functional Description:

Required to position and hold 2nd stage turbine blade retaining plate p/n 4079623 on pwa71994 rotating machine or pwa71990 reciprocating polish machine. Cip task 41-419r0982

Reference Data And Literature:

Serd 8519

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
