Alternating Current Voltage Rating In Volts:

115.0

Power Source:

External or self-contained

Intelligence Input Method:

Mechanical

Phase:

Single

Special Features:

Transmitted and received data can be viewed in either hexadecimal or easy-to-understand engineering format

Frequency In Hertz:

50.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
