Overall Length:

26.000 inches

Overall Height:

17.000 inches

Overall Width:

18.000 inches

End Application:

F-16 aircraft

Test Item Connection Method:

Connector

Functional Classification:

Aa-12.4

Special Features:

To name: advanced ais rf station radar dual mode transmitter interface test adapter

Reference Data And Literature:

To 33d7-50-704-1

Relationship To Similar Equipment:

Modified 16u474948-1 by to 33d7-50-704-508

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
