End Application:

F100-pw-229

Product Name:

Fixture machine

Special Features:

Consists of a stainless steel flanged masking cylinder having a base mounting flange and an upper high temperature rubber seal

Functional Description:

Protects the outer diameter of the air seal during grit/plasma operation

Reference Data And Literature:

Serd no. 9080

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
