End Application:

F-100-pw-229, f-5 hornet, acft

Nominal length:

4.000 inches

Nominal width:

4.000 inches

Nominal height:

6.500 inches

Special Features:

Material is aluminum

Functional Description:

Required to polish 2nd stage turbine blade retaining plate

Unpackaged Unit Weight:

4.000 pounds

Reference Data And Literature:

Serd no.8523

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
