End Application:

C-130 acft, cargo transport

Test Type For Which Designed:

Calibrate pitch/yaw module

Criticality Code Justification:

Agav

Special Features:

Used to calibrate and test the pitch/yaw adjustment module and to set voltages for the hud borescope

Reference Data And Literature:

Serd no 1863

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
