End Application:

An/adu-825/e

Inclosure Type:

Encased

Terminal Location:

Front corner

Power Source:

External

Terminal Type And Quantity:

2 connector, receptacle

Criticality Code Justification:

Agav

Product Name:

Panel assembly generator verification test set

Special Features:

Inavy panel assembly

Supplementary Features:

Uses receptacles mw27656t19b35p & ms27656t17b8p

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
