Overall Height:

7.800 inches

Overall Width:

2.200 inches

End Application:

Turbo prop engines (t58)

Accessory Components And Quantity:

Mounting studs 2 (1/4-28 to 1/4-28); mounting stud 1 (10-32 to 1/4-28); mounting stud 1 (1/4-28 to m6x1); carrying case 1; battery pack 1; storage box 1

Product Name:

Portable 1g handheld shaker

Functional Description:

Intended for rapid checking of vibration measurement, monitoring and recording systems using piezoelectric accelerometers, as well as other types of vibration transducers having a weight of 250 grams

General Description:

Operates at 159.2 hz; battery powered and ac adaptable; optional automatic shutoff after 1.5 minutes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
