Major Components:

Digital data storage; cpu; monitor; system 550; vibration analysis system; environmental control unit; master control assembly

End Application:

Jet engines

Test Type For Which Designed:

Vibration

Functional Classification:

Dd-1.2

Special Features:

CONS-IS-TSO-F:DD

Functional Description:

General jet engine testing

Entry Date:

01-05-02

Reference Data And Literature:

Configuration block drawing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
